We give **plastic**
another life

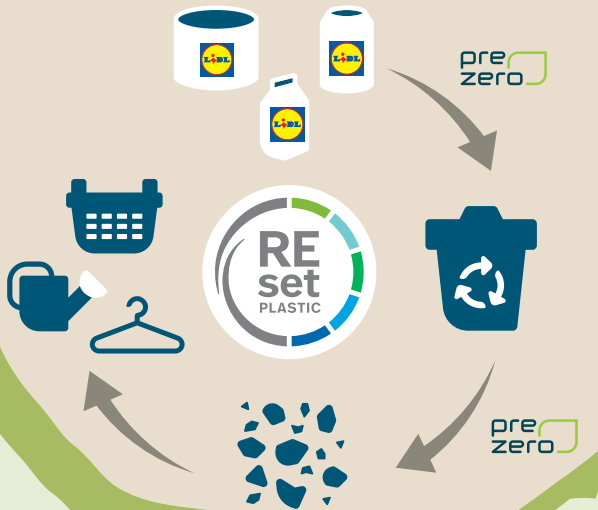

pre
zero

Thanks to **PreZero**, the environmental division of the Schwarz Group of which Lidl is a part, we transform domestic packaging waste by recovering and recycling it. Up to now, the products made have made it possible to recycle over 1,782 tons of plastic.

Through the REset Plastic strategy, we are committed to reducing the use of plastic and creating closed production cycles. In this way we contribute to the conservation of resources by reusing them for new products.
