**Good for You, Good for Everyone:**

## Our rules: transparency and equity!

A BETTER  
TOMORROW

All of our products are made exclusively  
with certified chocolate, not just at Easter.

At first glance, this tree has little  
to do with chocolate.

## From cocoa beans to chocolate eggs

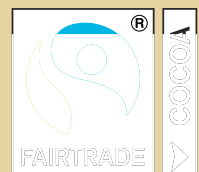

At Easter, chocolate is a must, with all the sweet eggs and colourful sweets being gifted and received. Before becoming a delicacy, the cocoa beans have to go through a long and complex adventure. Follow the journey of the cocoa, from tree to chocolate. This plant only grows in certain climates, because it needs high humidity levels, a lot of rain and a temperature between 25 and 30 degrees. That means that only African and South American countries are fit for this culture. After the cocoa fruits are harvested,

they are opened to extract the beans. These are then fermented to create raw cocoa. Once they have been dried, the beans are toasted, and the essential components of chocolate are retrieved. At that point, the chocolate needs to be processed to become an Easter egg, a bunny or a simple chocolate bar. Find your favourite shape in all our stores!

An important ingredient: lots  
of sunshine.

Liquid gold for all  
connoisseurs.
